

## **SecureNet Payment Systems Partners with EZCheck to Launch Full Service Agent Program**

**ROCKVILLE, MD and HOUSTON, TX, April 18, 2012** – SecureNet Payment Systems, a leader in payment processing technology, and EZCheck, a leading electronic payment processor, announced today the launch of SecureNet Partners. The partnership will provide agents with a full service program focused solely on the delivery and support of merchant level sales.

SecureNet Partners integrates more than 14 years of leading payment processing technology and unmatched expertise in merchant portfolio development and growth. Powered by SecureNet Payment System's cutting-edge, proprietary payment platform, merchants will be able to leverage the robust functionality, future innovations and economic advantages a direct processing partner like SecureNet provides.

Announcing the new partnership, Mark Engels, Executive Vice President of SecureNet Payment Systems, stated, "Acting as the face to the merchants, SecureNet Partners will provide independent sales agents with a dedicated support team, marketing resources to attract new merchants and a streamlined boarding process for new merchant relationships. The new partnership will allow us to collaboratively develop and market the most innovative payment solutions in the industry."

"The new venture represents exponential growth opportunity for both companies, while allowing each of the partners to focus on their core expertise. We are excited to expand our highly refined agent and merchant support service model into new market segments and provide our merchants and agents with the best-in-class payment processing technology," adds O. J. Thomas, Executive Director of Sales & Marketing at SecureNet Partners.

### **About EZCheck**

EZCheck has a 20 year history of delivering electronic services to the retail merchant industry. EZCheck was built on one of the industry's leading proprietary check and ACH processing platforms and has recently expanded into card processing and gift and loyalty card programs. EZCheck provides merchant boarding, terminal delivery and support, risk management, and settlement services for more than 6,000 merchants nationwide. EZCheck is focused on delivering best of class services not only to its' merchant base, but in support of its' agent network as well. EZCheck is the answer to the small or individual ISO organization that demands individual attention and timely response.

### **About SecureNet Payment Systems**

SecureNet Payment Systems makes accepting payments easy and safe regardless of where they originate with its robust, PCI-compliant proprietary payment platform. From traditional payment processing to electronic invoicing and eCommerce solutions, SecureNet makes payment processing effortless. Connecting merchants, financial institutions and their customers since 1997, SecureNet delivers a fully integrated, one-stop payment solution that is easy-to-use, stable and affordable for merchants of all sizes. Leveraging direct credit card relationships and its extensive platform functionality, SecureNet's payment platform empowers merchants to manage and control how they get paid, where they get paid and when they get paid, giving them the confidence and convenience behind every electronic transaction.

As a direct payment processor, SecureNet is able to provide cost-effective eCommerce solutions by passing cost savings on to merchants and resellers. Through unmatched customer service and seasoned expertise, SecureNet Payment Systems maximizes profitability for all partners by providing the best experience for buyers and sellers.
